FULLSTACK DEVELOPER

FEDERICO VIGLIAROLO

I am looking for new experiences in different areas of the IT industry and improving my technical skills by working in teams.
Due to my background, I find myself with great potential to build or get systems to a higher level of efficiency and quality.

• EXPERIENCE

Software and Security Tester

GeneXus, Dec 2020 - Today

- Functional testing.
- Security and vulnerabilities assureance.
- Feature Documentation.
- Bug fixing.

Bachelor scholarship holder

Instituto Tecnologico Superior (I.T.S), Jan 2020 - July 2021

- Develop a Museum system. The requirement was to make a web where users could find every Uruguay museum and book a tour guided by a teacher.
- Technologies used: Javascript, HTML, CSS, MySQL, BASH scripting, GCP, Bootstrap, Git.

High school scholarship holder

Instituto Tecnologico Superior (I.T.S), Jan 2019 - jan 2020
